

## RESOLUTION 4T

The Resolution 4 Touring is a three-way mid-high loudspeaker enclosure perfectly suited for use in medium sized applications. Typically used two wide for 80-90 degree overall dispersion, the Resolution 4 can also be used as delay or in-fill with Resolution 5 systems (for example as side hangs in Arena systems interspersed with Resolution 18s). Dimensionally identical to the Resolution 5 and 18, this enclosure also shares the same patented point-source flying system making for fast and easily adjustable set up. All inter-cabinet flying hardware is built into each enclosure leaving no chains, pins or tools to lose. Furthermore, this system allows secure ground stacking with optimum angle adjustment. This is a powerful and efficient mid-high enclosure which is designed to be operated as part of a four way system with F218, F121 or F221 bass. The sonic quality of the Resolution 4 is exceptional.

If the built-in flying system is not required, installation and simplified 'E' enclosure variants are also available.

### Features:

- Fully horn loaded for high efficiency
- Funktion One designed Neodymium drivers
- Integrated inter-cabinet flying system
- Captive link lead in recessed cable pocket
- Identical size to Resolution 5 and 18
- Supplied with protective wheelboard
- Optional scrim for discrete appearance

Driver	Operating Band*	Sensitivity (1W at 1m)	Power (rms**)	Nominal Impedance
12"	114 - 445Hz	105dB	300W	8Ω
8"	445 - 5k77Hz	108dB	200W	16Ω
1"	5k55Hz - up	109dB	50W	16Ω
